

Using VIG

(Video interaction guidance)

A report by children of Willows:

Charlie

ChipperKilla

Lee

Messi Junior

Jake Miller

Jess

In February we became researchers. We worked with Hilary and Karen to find out more about VIG.

We learnt that VIG is used to look for good communication.

We decided that good communication is:

- Eye contact
- Talking
- Listening
- Talking sensibly
- Taking turns
- Comfy environment
- Be polite
- Good body language

Things we saw in the videos of ourselves being good communicators were:

- Eye contact
- Interested
- Not talking over
- Hand gestures
- Following a lead

Positive things about our work on VIG

- Making the movie
- Cutting the video and making titles
- Writing a report
- The videos we saw
- Working with someone I haven't worked with before
- Being able to be a researcher
- Getting out of other lessons
- Everything!

Interesting things about our work on VIG

- Being able to put films together to make my own movie
- Editing the video
- Watching videos
- Everything was interesting

Negative things about our work on VIG

- Some bits were a bit boring

Other comments we made about VIG:

'It's fabulous!'

'I learnt you have to look at the other person while you are talking'

'I think I am going to be a better learner'

'I learnt about eye contact'

'VIG helps to get out of prison and live a good life with your family and that and don't do bad stuff'

'If me and my mum did it, we'd get along better'

'It could help me be a better learner'

'It could make work more interesting'

'It's better than just doing work'

'I don't really like being on camera, but I don't mind now and again'

'It's alright'
